

Optimize print for hybrid work

- HP Flexworker Lite
- HP Flexworker

Your evolving workforce

If the past few years have taught us anything, it's that "work" as we know it will never be the same.

More people are working from home or mixing their time between home and the office, which creates distinct management challenges for IT departments.

Fortunately, HP has solutions that make managing work from home or hybrid working scenarios immensely easier.

63%

of workers want to combine remote
and office working¹

43%

of workers expect to print the same as
pre-pandemic when they return to the
office¹

58%

of workers say they are more
productive working from home than in
the office¹

HP offerings for hybrid workers

HP FLEXWORKER LITE

Easy-to-use web portal for end-users to purchase supplies and company-approved HP devices and Care Packs.

HP FLEXWORKER

Remote worker print devices are fully integrated into a campus-based MPS program for a flat monthly fee per device.

SECURITY AND MANAGEABILITY	Device-based security Track and manage shipments and spend	Monitor and remediate key security settings Manage campus and remote devices via Device Control Center (DCC)

HP Flexworker Lite

Include remote workers in your MPS contract with easy portal-based supplies ordering and greater visibility and control over supplies management.

BENEFITS

- Simplified experience—Provides mobile workers the ability to order the pre-approved or pre-qualified hardware, supplies, and Care Packs they need.
- Better control—Provides visibility into ongoing supplies purchases with MPS billing and consolidated reporting.
- Cost savings—Enables purchases of OEM supplies at MPS contracted rates.

Customized supplies portal

HP Flexworker Lite

Customize the portal to your specifications—including your corporate logo

Provide users with a unique login showing only their printers

Show specific supplies and correct model numbers—so users won't need to search through hundreds of supplies or remember SKUs

Make it quick and easy for them to order exactly what they need

HP Flexworker

Support flexworkers with remote device management, automatic supplies replenishment, and an integrated support experience.

BENEFITS

- Convenient at-home printing—Give remote workers the right devices, software, automated supplies delivery, and tech support.
- Secure-by-design—Security controls allow IT managers to remotely set, monitor, and remediate essential security policies for at-home workers.
- Comprehensive and efficient management—Centralized billing, consolidated reporting, and a flat monthly fee for each Flexworker device.
