### Reduce, reuse, recycle

HP EvoCycle Cartridges are designed to have a lower carbon footprint than standard HP cartridges.<sup>2</sup> They are made from reused components and closed-loop recycled plastic from returned Original HP Cartridges collected from HP Planet Partners.<sup>3</sup> By using recycled materials, HP EvoCycle Cartridges have at least 77% less new plastic than standard Original HP Toner Cartridges.<sup>4</sup>

### Legendary HP performance and quality

HP EvoCycle is designed to be a closed-loop product while providing premium quality and reliability. HP EvoCycle Cartridges use new Original HP parts for components critical to print quality to help provide customer-ready prints. They have comparable print quality and reliability as Original HP Cartridges.<sup>5</sup>
